

ODIN GTX

Black Gore-tex® Leather /Textile High Liability Operational Combat Boots

GORE-TEX® Performance Comfort Footwear System

Flex-Z System

PUR Technology

Standard	ENISO20347:2011
Category of Protection	O2 HRO HI CI WR FO SRA
Mould	UK3A
Size Range	6.5 - 12 (UK) * 40 - 47 (Continental)
Leg Height	18cm
Upper	Combination of 2.2-2.4mm BLACK full grain breathable, waterproof, hydrophobic cow upper leather and BLACK knitted (non-running) polyamid 6.6 (Cordura®) non-wicking fabric with 100% polyester felt
Upper Top Lining	Soft black 3D mesh 100% polyester (LP)
Inner Lining	MS LIGHT ROCK GORE-TEX® laminate, waterproof and breathable. High wicking capacity, fast drying time, high abrasion-resistant, durable & meets ENISO20344. Optimised climate comfort, especially for flexible alternating inside and outside use.
Soling Technology	Dual density PU/Rubber soling system (cushioning polyurethane mid-layer and hard-wearing durable VIBRAM® nitrile rubber outer sole). Antistatic and oil resistant. Optimised wearer comfort through excellent shock absorption and cushioning properties. Grip and traction provided by the engineered sole structure enables superior mobility and balance over rough terrain and when scaling or traversing obstacles.
Comfort Features	Open cell, reticulated, non-wicking foam used to enable better fitting and reduce any pressure points developing or any hot spots
Footbed	Anatomically shaped, non-woven, removable, washable, moisture absorbent, quick drying, shock absorbent, felt footbed

LG Lacing System

Optimum grip on forepart

Self cleaning grooves

Optimum traction

High abrasion resistant outsole

Vibram Sole

Engraved shank for better grip on uneven surfaces

Optimum grip on heel

- Additional Benefits:**
- Dynamic Water Resistance exceeding 300,000 flexes
 - 2.6mm reinforced thermoplastic toe box,
 - 2.7mm moulded leather board counter
 - Rust proof fixtures and fittings
 - Suitable socks: TEMPERATE or ARCTIC socks
 - Easy donning and doffing
