

## Swing Arm and Soft Mount Assembly

Commanders Mount - 7.62mm GPMG or 5.56 mm MINIMI

ISTEC: 5133

NSN:1005-99-471-4667

### Description

The 7.62mm GPMG/5.56mm MINIMI Swing Arm Softmount is specifically designed for use across a wide range of platforms and is currently in service on land vehicles, boats and helicopters.

The modular design of the mount assembly enables it to be deployed and modified to suit varying roles. The Swing Arms can either be of single or double arm type and the base can be adapted to suit a specific vehicle interface. The mount system incorporates the proven Istec GPMG/MINIMI Softmount, currently in service with the British Army, Marines, Royal Navy, and the US Coastguard.

The swing arm travel locks and 400 round ammo box holders are standard and detachable spent case and link bag are also available.

The standard system consists of the following parts:

Softmount - 1005-99-241-7037

Swing Arm - 1005-99-509-7529

Base Plate - 1005-99-297-8045

Ammunition Tray - 1005-99-484-3560.

### Key Features
