

# DELIVERING FASTER RESULTS.

**Wincanton has helped AgustaWestland, a world leader in the helicopter market, to meet its objective of delivering faster results through more efficient solutions and processes its Yeovil site.**

Key benefits delivered include:

- High priority capacity increased from 50 to 70 units per day.
- Five day turnaround for MoD specific work, reduced from seven days.
- Increased productivity at the site by almost 50% while still maintaining excellent service levels.
- Goods in receipt capacity increased by 20%.

**AgustaWestland has greatly increased efficiency and productivity. This has been achieved through multiple departments being able to work on jobs simultaneously through parallel processing, thereby reducing turnaround time.**

"Working in partnership with Wincanton, we will help drive down the through-life cost of equipment through more efficient solutions."
