

WD100AM

Guartel
Technologies Ltd

CABLE DETECTOR
NSN 6665-99-134-9683

DESCRIPTION

The WD 100 AM is a modified variant of the WD100 and has been designed for use by light or airmobile forces. The unit components can be easily packed into rucksacks or can be transported in its rugged ballistic nylon carry case.

The WD100 AM is able to locate the presence of surface laid and buried cables over 50m in length to a depth of 200mm in most soil conditions except highly mineralised soils. The unit is self-testing and self-calibrating, and is weather proof.

CABLE DETECTOR
NSN 6665-99-134-9683

SPECIFICATIONS

Detection

Min 50 metres cable down to 20cm in most soil

Alarm

Audible

Power

3 X LR20 Batteries

Battery Life

Min 8 hours on full power

Operating Weight

3.2kg

Environmental

-20°C to +50°C

Equipment Contents

- Camouflage ballistic nylon field case
- Sensing Head
- Shaft
- Control Unit with fold handle
- Earpiece
- Confidence Test Piece
- Battery Carrier
