## POWER MODULES & INTELLIGENT SUBSYSTEMS

## Features/Benefits:

- Transient Thermal Characterization
- High Thermal Cycling Resistance
- Thermal Expansion Matching
- Shock and Vibration Rugged
- High Voltage & Current
- Ultra Low Inductance
- Factory Tested & Qualified
- MIL-PRF-38534 Class H
- DO-160, IP-67
- 600 Vdc Operation
- 500A Continuous
