

# Will you be READY?

DO YOU have the knowledge and confidence to *save your own life* or the *life of your partner* when the violence is turned against you?

Address the most common preventable causes of death for law enforcement officers specific to their often hostile, close and deadly environment. Designed for both classroom settings, Trauma Lanes and field training scenarios, these **all-in-one training** systems allowing you to build multiple scenarios and create realistic Full Mission Profile(\*FMP) with reactive patients.

## HEMORRHAGE CONTROL PART TASK TRAINER

The TOMManikin® family of products now includes a stand-alone, realistic training device that can be used with or without blood flow. Compact and easy to transport yet rugged enough for classroom or field use, a cost effective solution for skills training:

Gunshot wound in the  
inguinal crease through  
proper packing and/or  
use of junctional  
tourniquets

A fully  
amputated leg  
through proper  
application of a  
tourniquet

## TOMMANIKIN® GEN 4 MOBILE \*FMP SIMULATIONS

Packages offer a variety of wounds including gunshot, blast and burns as well as **Force on Force Target Systems**; Delivering heightened intensity and realism, making a **TOMManikin Package the Total Performance Solution** for educational trauma training.
