

# JUDGEMENT TRAINER

## KEY FEATURES

- High performance training system
- Supports all levels of force options
- Supports multiple shooters and multiple laser devices simultaneously

ShootBack

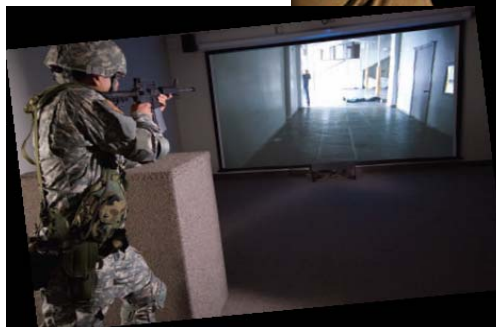

The PRISim Suite™ Judgment Trainer is a full-featured judgment evaluation and force options training program. By design, it creates a safe, effective and realistic learning environment for law enforcement, military and security professionals.

The Judgment Trainer software places participants into an interactive environment to cause responses to potentially deadly mistakes, indecision, sudden fear, partial understanding, blindside surprise, eye-blink response and life or death choices.

A safe, realistic training environment that provides effective use-of-force training difficult to recreate by conventional training methods.

## KEY FEATURES

- High performance training system
- Durable platform designed to support all PRISim Suite™ training programs
- Supports broad range of standard issue firearms and devices
- Supports all levels of force options
- Supports premium branching content and additional Judgment Trainer tools
- Training scenarios presented consistently for every trainee
- Supports multiple shooters and multiple laser devices simultaneously
- Capable of supporting ShootBack® Cannon
- Scenario performance and debrief export
- Firearms control (stoppages and reloads)
