

PORT•A•COOL *HURRICANE*

Lowers Temperatures
up to 30° Fahrenheit

Newest 36" Unit Features Unmatched
Airflow Delivery & Digital Controls

The Port-A-Cool® Hurricane portable evaporative cooler from Port-A-Cool, LLC can lower temperatures up to 30° F and provides 14,500 CFM - the largest airflow delivery of any 36-inch evaporative cooler offered. The unit utilizes high-efficiency cooling pads and water to naturally cool up to 3,500 square feet. The 2014 enhanced design features a digital control panel with easy touch buttons for operation and status displays, eye-catching blue blades and requires only 11.4 amps for pump and motor operation.

Features:

- 3,500 sq. ft. cooling capacity
- 14,500 CFM (highest airflow of any 36" evaporative cooler on the market)
