

*Four lane QuickRange with overhead targets and PRISim Suite LiveFireTrainer*

*Twelve lane QuickRange with overhead retrievable targets*

## QuickRange®

### LIVE-FIRE MODULAR SHOOTING RANGE

100% Ballistically Safe, Expandable Modular Range

QuickRange is the ultimate pre-fabricated live-fire modular shooting range complete with bullet traps, HVAC system, lighting, shooting stalls and targetry. Add the PRISim Suite LiveFire Trainer to create the most realistic training experience, combining live-firing with interactive HD scenarios.

QuickRange is safe, modular and expandable. Each module provides a complete indoor range from 25–100 metres in length, with two shooting lanes per module and fixed or overhead retrievable targets. Additional modules can be added on later to increase the maximum number of shooting lanes.

- Modular, expandable and reconfigurable live fire range
- A zero Surface Danger Area for all properly aimed shots
- Meets or exceeds current NIOSH, EPA and OSHA regulations for safety, air quality and noise prevention
- Can be put inside a building, or standalone with minimal site preparation
- Installed on your site within 120–210 days after receipt of order
- Can be expanded with extra shooting lanes as your training needs grow

## PRISim Suite® P3000

### LIVE-FIRE WEAPONS SIMULATOR

Realistic Simulation Training for Live Fire Ranges

PRISim Suite LiveFireTrainer (P3000) is the most technologically advanced live-fire weapons simulator on the market today. It provides unprecedented training realism for military, law enforcement and security professionals to practise live firing at interactive HD judgemental video scenarios and CGI marksmanship courses.

PRISim Suite LiveFireTrainer is available for installation into a certified live fire indoor range or our self-contained modular QuickRange®.

- Live fire sensors track rounds up to 3,248 feet per second
- Sensors can detect any caliber from 5.56mm up to .50 cal
- Comes with a self-healing rubber screen or live fire paper screen capable of handling thousands of rounds
- Realistic HD interactive video scenarios challenge trainees to make critical split-second judgements
- Presents consistent training and learning objectives
- Integrated presentation viewer for briefing and debriefing
