

SCHROTH

**Multi-Point Gunner/
Top Cover Harness**

Multi-Point Gunner/Top Cover Harness

The SCHROTH top cover harness has been developed and successfully tested to keep the standing occupant within the secure confines of the vehicle. Variations include single or multiple vehicle mounting points with static or retracting tail straps.

Adjustability:

- Fits 5% to 95% user (including body armor)
- Multiple adjustment for comfortable fit
- Color coded release tabs (red) for easy use
- Integrated retaining hardware to keep the extra webbing in place
- Operable with gloved hand

Quality Assurance:

- All manufacturing processes & components meet or exceed applicable ECE/FMVSS and/or FIA standards for restraint systems

Central Release Buckle:

- Mine blast/shock resistant
- Single point release for rapid egress
- Releases all straps
- Left and right hand release
- Operable with gloved hand
- Additional buckle options available (US Army standard "dual motion" & ECE push button)

Vehicle Attachment Options:

- Self retracting tail strap(s) which store excess webbing and allow for controlled movement
- Static with adjustable connection to vehicle

50mm Webbing:

- Additional comfort with load spreading memory effect webbing only from SCHROTH
- UV & chemical resistant polyester material
- Available in black or tan

Labeling & Use:

- Color coded shoulder, lap and crotch belts to ease donning of system
- Color coded release tabs (red) for easy use
- Operable with gloved hand

Quick Release Tail Straps:

- Push button buckle to release tail strap(s) from main system
- Operable with gloved hand

Tail Strap Options:

- Two symmetric attachments on rear hips or
- Single central attachment on middle-rear of system

Custom Applications:

- Systems may be adapted to many ground vehicle applications. SCHROTH can assist with interface, integration, installation and user requirements that may be required.
