complete wheel protection.

TSS WHEEL PROTECTION SOLUTIONS

ARMOUR *mobility*

Your vehicle
security specialist

TSS wheel protection can provide
a solution for most vehicle
types and budgets.

Rodgard Runflat system, because time can cost more than money when standing still.

Rodgard Runflat systems are light-weight, highly durable and strong enough to support a fully armoured vehicle. A vehicle equipped with Rodgard Runflat Systems is a vehicle that can keep moving in hazardous situations. We call that: Lifesaving Mobility.

RODGARD

Introducing the Hutchinson 2-piece wheel with beadlock or VFI Runflat systems, guaranteed to keep you moving.

Off-road driving requires low tyre pressure. Hutchinson 2-piece wheels with beadlock, allow you to lower tyre pressure drastically, in order to maximise your grip. Hutchinson 2-piece wheels are also suitable for VFI Runflat systems.

HUTCHINSON
WORLDWIDE

Unmissable... the Hutchinson VFI Runflat system, for when stopping is just not an option.

Designed especially for military applications, Hutchinson VFI Runflat systems are the unbreakable runflat system. The combination of Hutchinson 2-piece wheels and VFI with integrated beadlock ensures you can keep moving when stopping is just not an option.

No compromise for your braking system.

TSS has the ideal Braking System for specific customer requirements. Caliper, Friction ring and Braking Pad are perfectly adjusted to each other. MOVIT® SECURITY Heavy-Duty Brake Systems provide the highest braking force in the smallest space.

MOVIT

MOVIT® SECURITY Heavy-Duty Brake Systems

TSS Heavy-Duty multipurpose wheels combine strength with elegance.

Due to ever increasing payloads and limited availability of suitable wheels, TSS International has developed a new heavy-duty multipurpose wheel, which can be fitted on various armoured 4x4 vehicles and limousines.

Rodgard APX Runflat systems
are especially developed
for TSS Heavy-Duty wheels.

Technical specifications:

- 8.5 J x 18 AH2
- Payload 1.600 or 1.800 kilo's (TÜV approved)
- Asymmetric Safety Humps
- Integrated runner (patent pending)
for Rodgard APX Runflat systems
- Larger inside diameter for
Heavy-Duty brake systems
- Steel inserts to allow over-torque

**TSS Heavy-Duty wheels have
exclusive synergy with
Rodgard APX Runflat systems and
MOVIT® SECURITY Braking Systems.**
