

The Xplore xSTAND PRO

Versatile Desktop Docking System

THE DESKTOP SOLUTION

Xplore's xStand Pro features a host of onboard I/O connectivity, spare battery charger, and an articulating arm for angle adjustment. The xStand Pro also allows for Xplore Tablet PCs to be oriented in either portrait or landscape mode. In addition, due to the "Grab and Go" technology that is supported by Windows 7, the user can dock and undock the tablet on the fly without having to change the state of the operating system.

KEY FEATURES AND BENEFITS

- Angle adjustment arm supports a variety of view angles for standup or sitdown use
- Portrait or landscape orientation by swiveling the tablet in the mount
- Multiple insertion "pin and pad" docking connectors support daily docking activities
- Convenient stylus holder
- Secure, stable base with padded feet
- Permits iX104 to be used as full desktop replacement
- LED status lights for power, battery, charge status, and faults provide user with feedback as to operating conditions
