

INNOVATIVE COOLING SOLUTIONS

H-36 COOLING SYSTEM

ASHRAE 37 CAPACITY TESTED & VERIFIED TO AMB

- Lightweight, energy-efficient ECU
- Accepts alternative/hybrid power sources
- Scalable design allows for an easy increase in capacity to 5T and above
- Available with a digital thermostat option
- Designed for mobile or stationary applications
- Operational ambient conditions of -20°F (-29°C) to 130°F (54°C)
- Capacity: 36,000 BTU/HR @ 130°F (54°C) -- (3T)
- Power: 208 / 230VAC / 50-60HZ / 1 PHASE
- Weight: 410 Pounds
- Designed for both rigid and soft-wall shelter use

BUILT TO LAST

The H-36 combines superior durability with portability.

Rugged, heavy-duty construction designed specifically to endure extreme environments.
