

PROTÉGÉ™

PORTABLE MULTI-GAS MONITOR

BIG PERFORMANCE IN A SMALL PACKAGE.

The Scott name is synonymous with trustworthy protection in the most hazardous environments. The Protégé™ multi-gas monitor is no different. Like our complete line of personal safety equipment, the Protégé monitor is simple to use and incredibly durable, giving industrial workers and first responders alike the confidence to focus on the task at hand.

Scott Safety's Protégé multi-gas monitor meets all major global regulatory requirements, performs across multiple applications and facilitates protecting the overall safety of workers in hazardous environments.

PRODUCT HIGHLIGHTS

- Oxygen, Flammable, Hydrogen Sulphide and Carbon Monoxide sensors
- Intuitive user interface and any-button on, simple two-button operation
- Software is compatible with Windows® giving administrators the ability to quickly adjust monitor configurations
- Robust construction of the Protégé survives drops while being dust-tight and immersion-resistant
- Small size, 213g weight and unique hourglass shape the monitor fits comfortably in the palm of your hand
- Intelligent memory captures 7,000 significant events for complete analysis of information

PROTÉGÉ

MULTI-GAS MONITOR

WHEN YOU'VE BEEN PROTECTING LIVES AS LONG AS WE HAVE, ABSOLUTE CONFIDENCE COMES STANDARD.

The Scott name is synonymous with trustworthy protection in the most hazardous environments. The Protégé™ multi-gas monitor is no different. Like our complete line of personal safety equipment, the Protégé monitor is simple to use and incredibly durable, giving industrial workers and first responders alike the confidence to focus on the task at hand. The Protégé monitor is easy to handle in any situation. An intuitive user interface and simple two-button operation make calibration and basic operation virtually thought-free. Protégé software, compatible with Windows®, gives administrators the ability to quickly adjust monitor configurations. Its robust construction survives drops while being dust-tight and immersion-resistant. That's why those in charge of worker safety from hazardous gases are completing their safety checklist with yet another tool from Scott.

ALL-DAY EASE-OF-USE, FROM CHARGE-UP TO POWER-DOWN.

The Scott Protégé multi-gas monitor is remarkably easy to use, with intuitive features that help users focus on critical situations rather than their equipment. It

features automatic calibration and simple PC configuration—along with any-button on and two-button off functions. With Masterdock, calibration is a one-touch operation, facilitating easy maintenance. With a small size, 213g weight and unique hourglass shape, the Protégé monitor is the only portable gas instrument that fits in the palm of your hand. The bright LCD display and wide-

angle alarm bars are clearly visible from all positions. And the intelligent memory captures 7,000 significant events for complete analysis of information while enabling users and administrators to focus on the most pertinent information.

TOUGHER THAN THE REST.

Its toughness and durability are best-in-class for portable gas monitors. Protection against the intrusion of solid foreign bodies is as good as it gets: dust-tight. And its rating for protection against moisture covers everything from rain to total immersion. With performance levels like these, the Protégé monitor gives you the confidence to do the job right, in ever-harsher environments. any size calibration bottle to be used. The IR Connect allows programming and hibernating of individual monitors. You can also use the IR Connect to calibrate your monitor and download event logs.

Scott Safety is a global business unit of Tyco International that supplies a variety of industries through manufacturing facilities located in the United States, United Kingdom, Asia, Finland and Australia.
