

The C-C600 Series Universal Radio Intercom Controller (URIC)

The SAVOX C-C600 Series URIC is the next generation digital communications "hub", offering interoperability with a wide range of tactical radios, platform intercoms, sensors, alarms and audio devices.

URIC is ideally suited for many roles, e.g. Dismounted and Mounted Troops, Combat Medics, Police Firearms and CBRN teams.

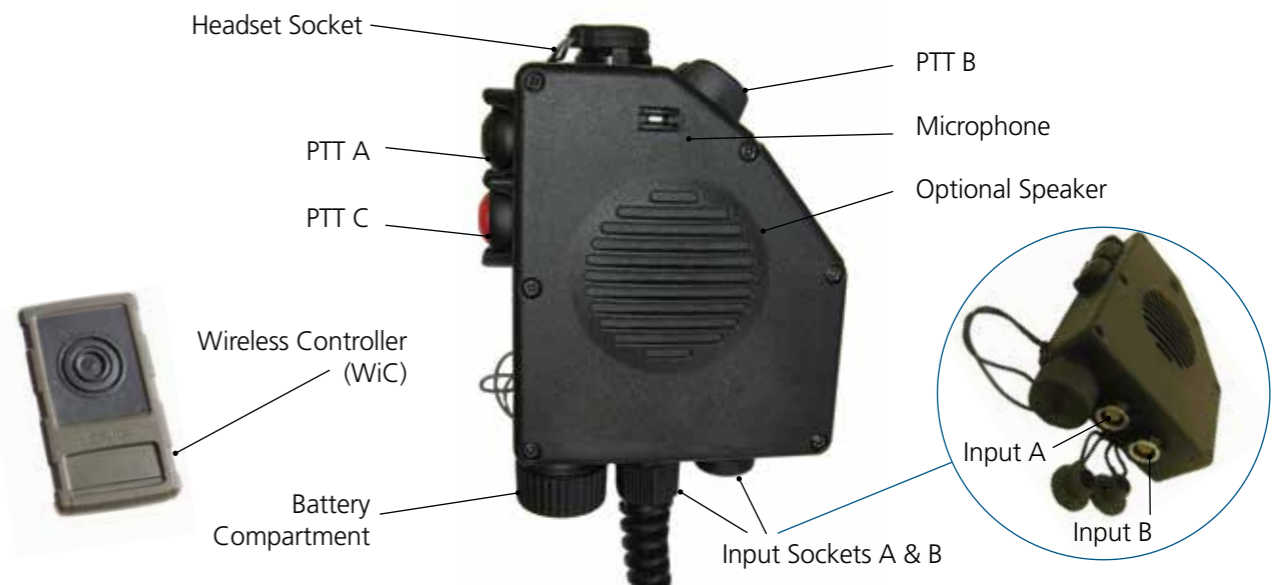

Combined with SAVOX's range of headsets, including the EarPAC In Ear Hearing Protection headset, the URIC offers today's professional users the most flexible, configurable and cost effective solution in the marketplace.

C-C633-4VPX URIC FEATURES

- Interoperates with most tactical and soldier radios and intercom systems
- Comprehensive compatibility with tactical headsets
- Voice guided menu prompts
- Voice Projection Mode for use with Respirators (Speaker Microphone variant only)
- Interfaces to the Apple iPhone® and other smart mobile telephones
