

Stay in control with Tyron Multibands

Tyron Multibands allow you to stay in control of your vehicle and get to a place of safety after a tyre blow out.

Roads and motorways are more congested than ever, and hard shoulders are disappearing as Smart Motorways become more prevalent. In the event of a tyre puncture, Tyron Multibands give you the peace of mind that you will be able to drive your vehicle until you can leave the motorway safely to change your wheel.

- ✓ Convert standard vehicle wheels to safety wheels, locking the tyre to the wheel
- ✓ Maintain steering, braking & cornering control during high-speed blow outs
- ✓ Short distance runflat capability
- ✓ Drive to a place of safety to change your wheel
