

WX ARC 40FT

Our Autonomous Refueling Cell (ARC) is a modular hard-shell double walled fuel container tank complete with dispensing pump system

- > ISO approved container for ease of shipping & redeployment
- > Secondary tank provides 110% containment to eliminate requirement for berms
- > Tanks can be linked together to increase capacity (linking kit(s) available as an option)
- > Pump cabinets in both ends to enable greater flexibility when offloading fuel
- > Dispensing pump system at 18 US gpm with single phase motor & 45ft, 5/8 inch hose reel
- > Can be specified to diesel, gasoline or JP8

PRODUCT SPECIFICATIONS

BRIM FILL	14,226 USG
95% SAFE FILL	13,376 USG
WEIGHT (EMPTY)	27,778 lbs
WEIGHT (FULL)	120,365 lbs
DIMENSIONS (L x W x H)	480 x 96 x 114 in
STANDARDS & APPROVALS	CSC & UL142
